

Granite Oaks Water Users Association *Operation and Maintenance*

Since October of 2005, FE has been providing all operation and maintenance for the Granite Oaks Water Users Association water production and distribution system. Our work included weekly site work, review of all facilities, wells, tanks, and booster pumps. This system supplies water to 450 users. FE obtains samples, reads meters, performs scheduled routine maintenance and is on-call 24 hours per day, seven day a week for emergencies. FE is also responsible for all regulatory compliance and reporting to ADEQ and ADWR.
