

Yavapai Community College Fire Tank *Subcontractor*

FE served as a subcontractor on this project to B's Contracting. This project included the installation of a 120,000 gallon fire tank, a 4" fill line, 16" discharge line, and float controls. FE was responsible for constructing the storage tank pad and tank ring, installation of the water fill and discharge lines, fill control valves, and electrical controls. The project also included abandonment of the existing fire suppression fill line from the campus pond.
